Career Objective

A Software Developer with hands-on experience in designing, developing, and maintaining scalable software applications and services, and passionate about clean code, and delivering quality results.

Skills

Technical Skills: C#, JAVA, MySQL, SQL Server, HTML5, CSS3.

Technologies and Frameworks: ASP.Net Core MVC, Entity Framework, Acumatica ERP, Spring Boot.

Tools and Platforms: Visual Studio, IntelliJ IDEA, Git, GitHub, AWS (Basics).

Soft Skills: Communication Skills, Critical Thinking, Leadership, Problem-Solving, Team Collaboration.

Education

CSMSS Chh. Shahu College Of Engineering **2021 - 2025**
Bachelor of Technology in Computer Science and Engineering *Chh. Sambhajinagar, Maharashtra*

Projects

Bulky Web

- Tech Stack: C#, ASP.NET Core MVC, Entity Framework, Identity, Razor Views, HTML, CSS, Microsoft SQL Server
- Developed a full-stack e-commerce web application using ASP.NET Core MVC and Entity Framework Core to manage products, categories and orders.
- Integrated role-based authentication and authorization using Identity to secure admin and user access.
- Implemented Repository, Unit of Work design patterns with Dependency Injection for clean architecture.
- Designed a responsive frontend using Razor Views, HTML5, and CSS3, integrated with SQL Server for efficient data persistence and management.

Online Personalized Learning Application

- Tech Stack: JAVA, Spring Boot, Spring Security, Thyemleaf, HTML, CSS, MySQL
- Developed a web application facilitating peer-to-peer learning and empowering users to teach and learn collaboratively.
- Integrated responsive UI using Thyemleaf, HTML and CSS to enhance user experience across devices.
- Enabled a seamless learning environment, fostering knowledge exchange and collaboration among users.

Experience

Zingworks LLP, Pune **11/2025 - Present**

- Currently working as a **Software Developer**, contributing to application development and maintenance.
- Developed and customized business applications using Acumatica ERP and ASP .NET Core to meet client requirements.

Coditas Solutions LLP, Pune [Software Development Intern] **07/2025 - 10/2025**

- Developed and maintained web applications using ASP.NET Core MVC, C#, and Entity Framework Core.
- Implemented authentication and authorization using ASP.NET Core Identity with secure role-based access for users and admins.
- Enhanced application performance by 20% through optimized LINQ queries and database design using SQL Server.

Flynaut SaaS Pvt. Ltd, Pune [Java Developer Intern] **03/2025 - 06/2025**

- Worked on developing Java-based web applications using Spring Boot, Spring Security, and MySQL.
- Gained hands-on exposure to AWS cloud services, understanding scalability, load balancing, and architecture.

Extracurricular Section

- Successfully coordinated test operations for 1500+ students, ensuring seamless execution, high participation, and a disciplined, efficient examination environment.
- Led and organized impactful NSS initiatives including blood donation camps, cleanliness drives, and career awareness sessions driving strong team participation and meaningful community impact.

Certifications

- Compiler Design, Cloud Computing (NPTEL).
- SQL Development (Simplilearn).
